Dear Mr. White:

This will confirm the oral request made by Colonel Stilwell of the Committee's staff for the temporary loan of a qualified stenographer.

For the immediate future, the agency under contract to provide support for the Committee will be unable to maintain pace, in the provision of secretarial assistance, with the workload being generated by the substantive members of the Committee's staff. The problem, as you might suspect, has been essentially in the clearance field. It is anticipated that this problem will be resolved within a very few weeks, which puts a finite limit on the duration of the services of the stenographer herein requested.

Your assistance in this matter will be deeply appreciated.

Sincerely yours,

FOR THE CHAIRMAN
